

## Route 202 – Section 700 Project Website

Welcome to PennDOT's redesigned website for the Route 202 Parkway. Work is now underway on the Parkway's southern section (Section 701) and soon will begin on the northern and central segments (Sections 721 & 711).

As the Route 202 Parkway takes shape, we'll use this website to keep you informed about the progress of construction and provide you with lines of communication to the project team.

You can stay informed by visiting regularly and by subscribing to receive project news and travel advisories in your e-mail at home or at work. As always, these project services are free, and the information you provide on the subscription form remains confidential.

All we ask, as you drive through the work zones that will mark our presence in your communities and on your commute, is that you remain mindful of the posted speed reductions and stay alert for the presence the workers whose job it is to turn this *Parkway Concept* into an important component of your transportation future. Please drive safely and distraction-free wherever and whenever you travel.

Les Toaso  
District Executive

### **About PennDOT District 6**

PennDOT's [District 6](#) is one of 11 regional Engineering Districts of the Pennsylvania Department of Transportation. State Transportation Secretary Allen D. Biehler, P.E., heads the agency under the administration of Governor Edward G. Rendell.

District 6 serves more than three million customers in the Greater Philadelphia Region that includes Bucks, Chester, Delaware and Montgomery counties and the City of Philadelphia. Their professional, administrative, clerical and maintenance personnel provide engineering, maintenance, construction, traffic and related services for a state transportation system of 3,600 roadway miles and 2,720 bridges in the region.

PennDOT's [Central Office](#) in the state capital of Harrisburg, provides transportation, motor vehicle and driver licensing services, as well as administrative, technical and professional support for all 11 Engineering Districts and Pennsylvania's ports, airports, railroads and locally-owned roadways.
